RESPONSE

In response to the action mailed February 26, 2002, please amend the application as follows:

In the claims:

Please cancel claims 16 and 24.

Please amend claims 1-15 and 17-21 as follows:

*Sub 1*  
A shoe comprising:  
an outsole having an upper surface, a lower surface and a heel section, the upper surface being positioned closer to a wearer's foot when the shoe is worn, the outsole further having an aperture in the heel section extending from the upper surface to the lower surface; and  
a resilient, flexible first cushion disposed on the upper surface of the member in the heel section, the first cushion being shaped to protrude through the aperture;  
the lower surface including a recessed portion, disposed around the aperture, the recessed portion having sufficient depth so that a lower surface of the first cushion will not contact a walking surface when the wearer is walking.

2. The shoe according to claim 1 wherein the outsole comprises rubber.
